Each feature is associated with a topic in this codestream. The topic name, followed by the summary of the feature, is listed first. The following items are listed next: •The command to run to see the feature in action. •The command line switches you must use to make it work. •A description of the command line switches. The table lists the features of Notes 8.5.3 codestream and how to access them. Table 7–1 New Features Feature Name and Summary Command Switch Description Forms for the Earlybird Package (IBM Lotus Notes 8.5.3) IBM Lotus Notes 8.5.3 can now provide forms in XHTML for the Earlybird package, which you can use to find out about IBM Lotus Notes 8.5.3 or to pre-register your interest in taking part in the main beta release. Using this feature, you can create forms in a subset of the XHTML markup language (with no tables), which you can then access via the Notes View panel. You can create forms with a simple web browser and preview the forms via the Notes View panel, or with a web browser and a more powerful testing tool such as Internet Explorer 7. This feature is available to all IBM Lotus Notes clients, but only to customers who have the Earlybird Package and are running the codebuild service pack. You can edit the existing forms in the XHTML package created with this feature and export them as standalone HTML, using the Exporting Forms feature. You can then access them with a web browser. To access this feature: 1.Go to the Forms and WYSIWYG section of the Notes client. 2.Open the "Forms for the Earlybird Package" subgroup. 3.Open any form created with this feature. When you access a form created with this feature, the form opens in the Notes View panel. 4.You can use the Format drop-down menu to choose between a basic XHTML form or an XHTML form with table markup. You can preview the form using the Notes View panel, open it in a web browser (such as Internet Explorer 7) or export it in HTML format. If you are using the "Export to HTML" feature to export the form, in the "No Form Fields" pane, click 82157476af
